"Our technician, Pat, provides above and beyond service. This past year he took care of the stinging insect problem under our deck. We are so happy with the results Pat and Varmet Guard have brought us and look forward to working with them for years to come. Thank you."

Steve and Shirley, Ohio

Our Bed Bug Services

Bed bugs can hitchhike on luggage of travelers who stay in motels, hotels or homes that are infested with bed bugs. Bed bugs also make their way into dwellings when people acquire used furniture. In multiple-dwelling buildings (apartments, hotels and motels, dormitories), bed bugs travel from active units into inactive ones. There are many tools for ridding buildings of bed bugs.

Varment Guard offers the following treatments:

- **Proactive Treatment**
 - Less invasive treatment with less preparation required
 - Reduced risk treatment
 - Peace of mind, keep infestations from occurring

- **Curative Treatment**
 - Heat Treatment
 - Liquid Treatment
 - Dusting Treatment

Our Termite Program

The Sentricon® System is designed to eliminate the entire termite colony, not just individual termites, making it the most effective termite control product available. And, it is only available through Certified Sentricon Specialists, like us, who are among the industry's best pest management companies. Sentricon begins the termite colony elimination process on Day One, and provides continuous property protection 24/7/365.

"Your representative Anita was very understanding and made me feel at ease when she inspected my home. I have never felt such empathy from someone working for ANY company that I have had dealings with. Because of Anita and the rest of your employees I have had the pleasure of working with, I would not hesitate recommending Varment Guard. Thank you"

Richard, Ohio
